## Summary

Product Analyst at Paytm. I own features on the SuperApp from PRD to release, and I debug them myself across APIs, logs and analytics. Dual degree in Computer Science and International Relations from JNU. I maintain a SuperApp with a user base of ∼1.2M and have worked on 50–60 of its features and enhancements.

## Work Experience

**Paytm (One 97 Communications Ltd.)** *Jan 2026 – Present*

*Product Analyst*

- Owned multiple features, including **Media Lounge** (a content streaming and channel viewing module) and **Offer Basket** (a module separate from the Packs and Recharges section), end to end: PRD, Figma, back-office config, staging tests, UAT, release.
- Maintained a SuperApp with a ∼1.2M user base. Media Lounge reached **150k users in 2 months**, and active users on the app rose ∼**20%** over a quarter.
- Worked on 50–60 features and enhancements across the app, including revamps of existing features with Liberty Latin America that improved engagement and retention.
- Cut feature triage time and improved release stability by tracing issues myself across API calls (cURL), ELK logs, frontend and Firebase analytics.
- Ran client requirement calls and turned them into PRDs, user stories and Jira sprints. Ran daily internal DSMs and refinement. Delivered milestones on time.

**Value Research** *Jun 2025 – Oct 2025*

*Associate*

- Built an app for tracking user magazines for in-house members, on Google Sheets and a custom Apps Script web app, designed so it could also go live. Cut manual effort by ∼60%.
- Ran user feedback loops for Advisor App that shaped early product decisions.

**IT Dept., Govt. of NCT Delhi (Forest & Wildlife)** *Jan 2024 – Mar 2024*

*Backend Development Intern*

- Built CRUD modules and secure authentication on ASP.NET and SQL Server. Cut manual data handling by ∼40%.

## Core Skills

| | |
|---|---|
| **Product** | PRDs, Roadmapping, Prioritisation, Agile/Scrum, Jira, Figma, Wireframing, UAT |
| **Data** | SQL, Firebase Analytics, ELK Log Analysis, API Testing (cURL), A/B Testing |
| **Technical** | C++, ASP.NET, Google Apps Script |

## Education

**Jawaharlal Nehru University (JNU), New Delhi** *2020 – 2025*

*Integrated B.Tech in Computer Science Engineering + M.S. in International Relations*

## Projects

**iCET Framework: Indo-US Critical & Emerging Technology Initiative** *Sep 2024 – May 2025*

- Wrote analytical reports on US-India collaboration in AI, quantum, defense and semiconductors, and on China's role as both driver and constraint.

**Species Translatability Using Toxicity Data** *Sep 2023 – Jan 2024*

- Built a linear regression model to predict cross-species gene expression from hepatotoxicity data.
